PROFESSIONAL SUMMARY

Data Analyst with over two years of internship experience across banking (Bank Mandiri, Bank Syariah Indonesia) and technology (GoTo Gojek Tokopedia). Skilled in SQL, Python (pandas, NumPy), Excel, and Tableau for data validation, data analysis, data visualization, and dashboard reporting. Experienced in analyzing datasets of 30,000+ records, building KPI dashboards for stakeholders, and turning findings into actionable recommendations. Computer Science graduate from IPB University (GPA 3.48/4.00).

SKILLS

- **Data Analysis & BI:** SQL (PostgreSQL), Python (pandas, NumPy), Excel, Tableau, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA), Data Validation, Data Visualization, Dashboarding
- **Machine Learning & AI:** TensorFlow, PyTorch, Hugging Face, LLM/VLM Evaluation, Prompt Engineering, Retrieval-Augmented Generation (RAG), YOLO, OpenCV
- **Tools:** Git, GitHub, GitLab, Docker, Flask, Jupyter Notebook, Google Colab
- **Programming:** Python, SQL, C++, Java, HTML, CSS
- **Soft Skills & Languages:** Problem-Solving, Stakeholder Communication, Teamwork, Attention to Detail, Project Management; Indonesian (Native), English (Fluent)

WORK EXPERIENCE

Bank Mandiri, Jakarta, Indonesia — August 2025 – Present

IT Infrastructure Intern, Internal Control & Governance

- Validated infrastructure operational data for accuracy and compliance with technical guidelines, supporting internal, external, and regulatory audits.
- Developed GovHub (IFS Governance Hub), a Flask and PostgreSQL web application that provides monitoring, digitized business flows, and supporting features to enhance the Infrastructure Governance team's workflow.

GoTo Gojek Tokopedia, Jakarta, Indonesia — January 2025 – December 2025

Data Scientist Intern

- Built and refined 10,000+ voice and text data points used to train and evaluate large language models (LLMs) for the SahabatAI project.
- Evaluated open-source vision-language models (10B+ parameters) using VLMEvalKit, analyzing model responses to image-based prompts to assess visual understanding and reasoning quality.
- Red-teamed LLMs using prompt engineering to identify patterns where safety safeguards could be bypassed, documenting findings and restricted outputs to inform safeguard improvements.

Bank Syariah Indonesia, Jakarta, Indonesia — August 2024 – December 2024

Digital Banking Operations Intern

- Managed and analyzed data from 30,000+ QRIS/EDC merchants (identification, visualization, and analysis) to generate insights on failed disbursement cases for team decision-making.
- Contributed to designing the resolution workflow for failed disbursements, coordinating with customers, IT, and operations teams to ensure fund reimbursement complied with national regulations and company policy.

EDUCATION

IPB University (Institut Pertanian Bogor), Bogor, Indonesia — August 2021 – October 2025

Bachelor's Degree in Computer Science, GPA 3.48/4.00

- Relevant coursework: Database Systems, Data Mining, Algorithms, Data Structures, Operating Systems, Machine Learning, Artificial Intelligence.
- Final project: Curated and processed a labeled dataset of 1,200+ drone-captured images to train a YOLOv12 object detection model, achieving a mAP50-95 score of 0.942.

TRAINING & CERTIFICATIONS

Bangkit Academy 2024 by Google, GoTo, and Traveloka, Indonesia — February 2024 – June 2024

Machine Learning Path

- Completed machine learning concepts, workflows, and production-ready applications with an average grade of A; built a computer vision solution in a Progressive Web App (PWA) as a team capstone project.

LEADERSHIP & ACTIVITIES

Himpunan Mahasiswa Ilmu Komputer (HIMALKOM) IPB, Bogor, Indonesia — January 2023 – December 2023

Human Resource Development Staff

- Led talent scouting for Computer Science students by organizing internal competitions as a selection mechanism to identify top-performing candidates for university-level competitions.
