Data Scientist and Analyst with hands-on experience in data pipeline engineering, dataset evaluation, and data-driven problem solving across tech and banking industries. Fresh Computer Science graduate (IPB University, GPA 3.48) with over a year of professional experience, skilled in SQL, Python, and machine learning for extracting actionable insights from large datasets. Seeking a full-time role in Data Science or Data Analytics where I can turn data into clear, actionable business impact.

EDUCATION

Institut Pertanian Bogor (IPB) University – *Bogor, Indonesia.* August 2021 – October 2025

Computer Science Graduate, GPA: 3.48/4.00

- Studied core Computer Science disciplines including algorithms, data structures, operating systems, database systems, and data mining, with a focus on machine learning and AI.
- Final project : Curated and processed a labeled dataset of 1,200+ drone-captured images to train an object detection model (YOLOv12), achieving a mAP50-95 score of 0.942.

EXPERIENCES

Bank Mandiri August 2026 – Present

IT Infrastructure (Internal Control & Governance) Intern – Jakarta, Indonesia.

- Validated infrastructure operational data for accuracy and compliance with technical guidelines, supporting internal, external, and regulatory audits.
- Developed GovHub (IFS Governance Hub), a Flask and PostgreSQL web application that provides monitoring, digitized business flows, and supporting features to enhance the Infrastructure Governance team's workflow, including an ETL process that transforms audit documents into structured data for dashboard reporting.

GoTo Gojek Tokopedia January 2025 – December 2025

Data Scientist Intern – Jakarta, Indonesia.

- Built and refined 10,000+ voice and text data points for training and evaluating LLMs under the SahabatAI project.
- Evaluated open-source VLM models (10B+ parameters) using VLMEvalKit, testing model responses to image-accompanied prompts to assess visual understanding and reasoning quality.
- Red-teamed LLM models using prompt engineering techniques to uncover patterns where safety safeguards could be bypassed, documenting successful jailbreak cases and restricted outputs to inform safeguard improvements.

Bank Syariah Indonesia August 2024 – December 2024

Digital Banking Operation Intern – Jakarta, Indonesia.

- Managed and analyzed data from 30,000+ QRIS/EDC merchants (identification, visualization, and analysis) to generate insights on failed disbursement cases, serving as a reference for team decision-making.
- Contributed to designing the resolution workflow for failed disbursements, involving coordination with customers, IT, and operations teams, ensuring fund reimbursement complied with national regulations and company policy.

ORGANIZATIONAL EXPERIENCES

Himpunan Mahasiswa Ilmu Komputer (HIMALKOM) IPB – *Bogor, Indonesia.* January 2023 – December 2023

Human Resource Development Staff

- Led delegation efforts in scouting Computer Science student talent by organizing internal competitions as a selection mechanism to identify top-performing candidates for university-level competitions.

COURSES

Bangkit Academy 2024 By Google, GoTo, Traveloka February 2024 – June 2024

Machine Learning Learning Path

- Studied Machine Learning concepts, workflows, and applications for production-ready use cases, achieving an average grade of A.
- Completed a group capstone project: developed a OCR model to extract ID Card information within a Progressive Web Application (PWA).

TECHNICAL SKILLS

- **Data Analysis & BI**: Python, SQL, PostgreSQL, Excel, Data Cleaning/Validation, ETL
- **AI/LLM** : Prompt Engineering, LLM/VLM Evaluation
- **Tools** : Git/Github, Docker, Flask

SOFT SKILLS

Fluent in English, Problem-Solving, Teamwork, Objective oriented, Communication, Attention to Detail, Project Management.
